THE KEYNOTE

Not a lecture. An experience.

Through powerful storytelling, unexpected audience participation, and principles from the Operator-Athlete Method, Cameron challenges audiences to reconsider the assumptions shaping their lives.

THE OPERATOR-ATHLETE METHOD

Transformation isn’t an accident. It’s something you build.

Through the Operator-Athlete Method, Cameron connects lessons from high-performance athletics with the mindset and execution required to create meaningful personal change — ideas audiences can begin applying to their own lives.

THE TRANSFORMATION

From 60 pounds overweight to Team USA.

Once 60 pounds overweight, Cameron Schiller became a four-time Team USA athlete, two-time national triathlon champion, and multiple Ironman finisher. A Senior Producer at Publicis, he has led complex international productions, including campaigns connected to the Olympic Games.
